Strong performance in agricultural markets

- ▶ Recovery of crop prices on back of falling stock-to-use ratios, mainly corn and soybean below 5-year-average
- ▶ First significant increase in agricultural profitability since 2015
- ▶ Upside potential for good potash demand growth in 2021 in all regions against moderate supply growth
- ▶ Farmers switch from a cost-minimized to a volume-optimized mindset with very favorable affordability indices

Agriculture customer segment

Stable specialty business and regional diversification are paying-off
Q1/2021

- Strong price recovery in Brazil continued on the back of very strong demand
- Improved demand in SEA
- This also positively influenced European and specialty market

Outlook 2021

- World potash demand incl. 5 mt specialties meanwhile expected between 74 and 76 mt (2020: about 74 mt)
- At the same time, overseas prices are expected to rise significantly compared with previous year's levels
