Trading update: Industry+

De-icing salt business

- Slightly below-average Q1 after weather-related strong performance in Q1/2021

Pharmaceutical industry

- Price- and volume-related increase

Food industry

- Price- and volume-related increase

Chemical industry

- Strong performance in Q1

Consumer products

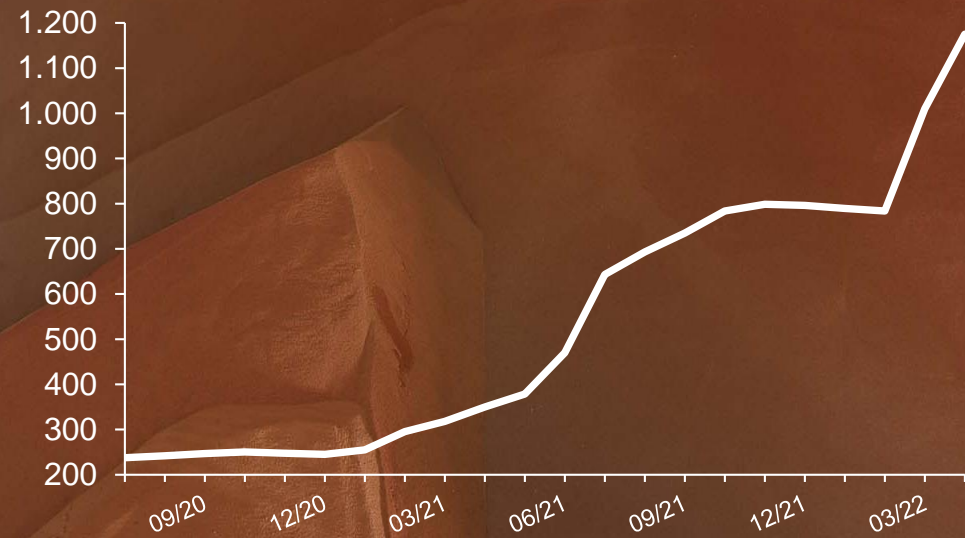

- Except for weather-related lower de-icing salt, strong performance as in the prior-year quarter due to high home consumption

Market Environment and Outlook

Attractive market environment

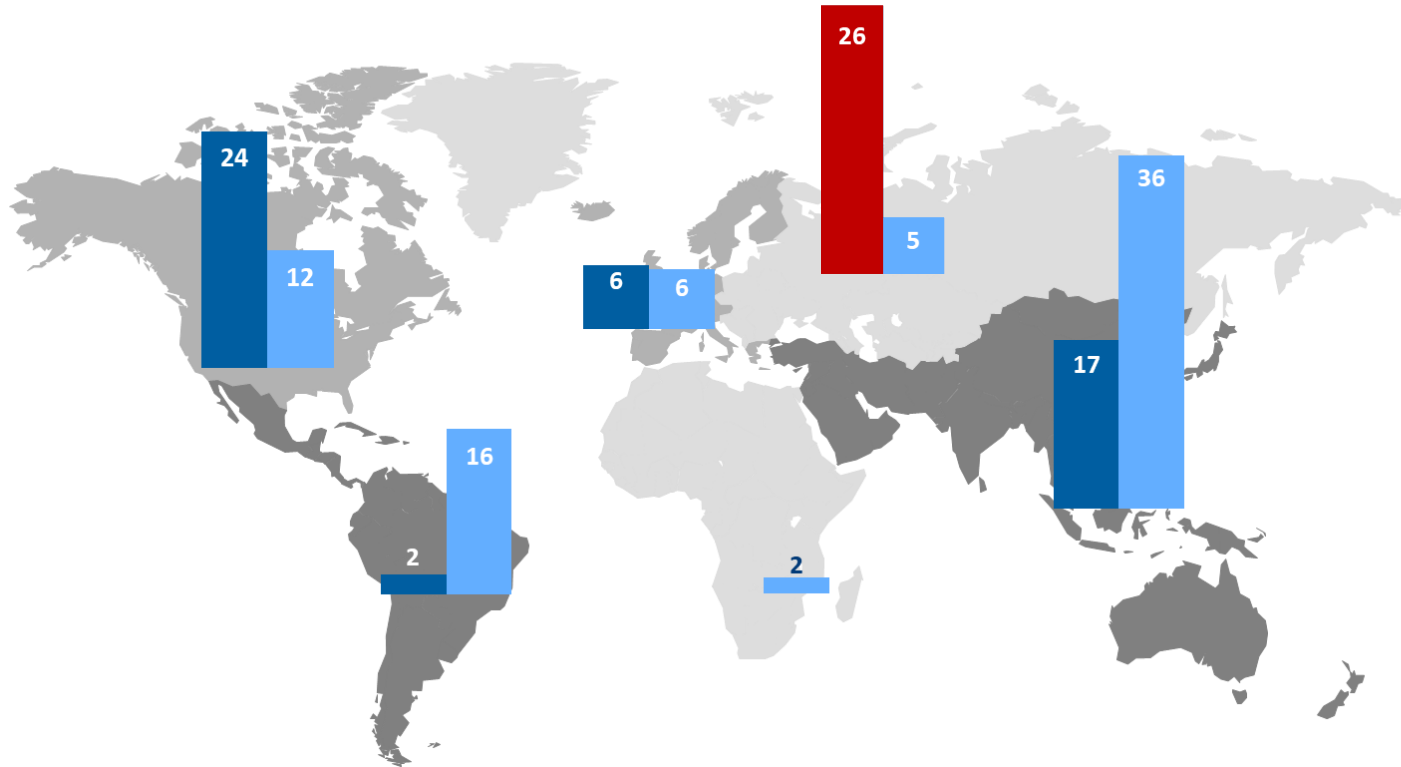

Brazil potash price in USD
(MOP gran.)

- Potash prices in Brazil more than quadrupled; Europe also records significant increase
- High demand for fertilizers with supply at full capacity

Substantial restraints of global potash supply

in million tonnes

2020

World potash production	75.3 mt
World potash sales volume	77.3 mt

Sources: IFA 2021, K+S Basis: Year 2020 – incl. Potassium sulphate and low-grade potash

- Russia and Belarus each account for 16% of global potash production
- Most projects for capacity expansion came from Russian potash producers
- 28% of global wheat exports come from Russia and Ukraine

Continued positive environment

- Yield prospects for farmers remain attractive
- Continued very good demand for potash expected
- Increase in global potash supply hardly possible in the short term
- Sanctions against Belarus already limit global potash supply, extent of sanctions against Russia and their impact uncertain

Price development of important agricultural commodities since January 2020

2022 EBITDA outlook raised to €2.3 to €2.6 billion

- Strong increase in average price in Agriculture product portfolio
- Cost increases for energy, logistics, and materials to be significantly exceeded
- Capex of a good €400 million (2021: €334 million)
- Assuming that there are no production restrictions in Germany due to bottlenecks in the availability of natural gas.

FCF expected to range from €1 billion to €1.2 billion without one-off effect of around €230 million for the repayment of factoring and purchase of CO₂-certificates. (2021: €93 million; including €89 million attributable to REKS transaction)

European energy supply

- Price secured for more than 90% of natural gas demand 2022
- Prices secured for more than 70% of natural gas demand in 2023 and 2024
- Like all industrial companies in Germany, we are dependent on the reliable supply of natural gas
- Canadian site Bethune independent of natural gas availability in Europe, German Wintershall plant of the Werra site runs with waste incineration plant

Planned use of additional liquidity

- Repayment of factoring
- Purchase of CO₂ certificates for the years 2026 onwards already completed
- Dividend payment for the 2021 financial year
- Repayment of bond due in June 2022
- Accelerated Bethune ramp-up
- Investment in optimizing our existing business
- Building a crisis-proof balance sheet and liquidity position

Guiding principles of strategy and management focus

Financial ambition

- Earn cost of capital over a 5-year cycle
- At the same time, an EBITDA margin of > 20% is aimed for over this cycle
- From 2023, positive free cash flow even in the event of temporarily low potash prices

Optimize the existing

Agriculture

- Increase of marketing in USA ex Bethune
- Increase of trading business in Middle East, China and India
- Improved leveraging of local sales network

Industrie+

- Focus on potash product groups for industrial product sales
- Capacity expansion of high-purity salts
- Optimization of de-icing salt setup

Supply Chain

- Warehouse and network optimization for European salt logistics
- Optimization of warehousing
- Optimization of infrastructure utilization

➔ **EBITDA impact: around €30 million p.a. from 2023**

Clear focus of our sites

Bethune

- Long-term ramp-up to up to four million tonnes of capacity
- Improvement of cost position
- Increase in granulated products

Zielitz

- Improvement of the cost position
- Optimization of maintenance
- Increase in energy efficiency
- Increase in KaliSel production capacity

Werra

- Optimization of product mix & production volumes
- Optimization of maintenance
- Increase in energy efficiency
- Increase in granulation capacity for potassium sulfate

Neuhof-Ellers

- Improvement of the mineral content through AI
- Increase of the granulating capacity of kieserite

➔ EBITDA impact: around €50 million p.a. from 2023

Optimize the existing – site strategies

Bethune

- 2022 expense budget has been increased by €50 million
- Additional capex proactively target
 - short-term acceleration as well as
 - longer-term ramp-up
- Hiring process for more than 70 additional people for the further ramp-up project mainly in the field of engineering, IT and operations has started
- The ramp-up project will not only increase production and reduce production costs, but improve environmental and sustainable impact

Planned use of additional liquidity

- Repayment of factoring
- Purchase of CO₂ certificates for the years 2026 onwards
- Dividend payment for the 2021 financial year
- Repayment of bond due in June 2022
- Accelerated Bethune ramp-up
- Investment in optimizing our existing business
- Building a crisis-proof balance sheet and liquidity position
